Brussels - Belgium

Professional experiences

- **AppTweak**
  Frontend development full-time - Brussels
  Full-time Frontend Developer in an agile team, contributing to a complex data-driven web app with modern technologies. Proficient in continuous development with a focus on code quality, consistently creating thorough tests for resilient applications. Actively engaged in code review and pair coding sessions. Organized and participated in workshops, fostering collaborative learning within the team. Took ownership of product features and code segments, ensuring accountability throughout the development process.
  Nov 2022 - Present

- **Igloo**
  Web development internship - Louvain-la-Neuve
  Full-time intern, actively involved in adding features to a spa. Expertise in Next.js, Prisma and TypeScript. Regular daily code reviews with the tech leader to maintain high-quality code standards.
  Feb 2022 - Jun 2022

- **Interparking**
  Web development internship - Remote
  Interned on the development team overseeing a web and mobile app project. Gained insights into the challenges inherent in both web and mobile platforms. Thrived in a fully remote, multi-nationality work environment, adapting to diverse collaboration dynamics
